

The 19th IALA Conference World Lighthouse Heritage Exhibition

18th MAY 2017

Dear IALA National members,

Subject: Request for the Participation in the World Lighthouse Heritage Exhibition

In May of 2018 the Republic of Korea and IALA will host the World Lighthouse Heritage Exhibition in Incheon, Korea. The Exhibition will illustrate the technology, materials, industries, and architecture involved with lighthouses over the centuries, and the impact on society and the environment. It will take place during the XIXth IALA Conference and will be open without entry fee to Conference participants and the public.

The Exhibition is open to all IALA members to send exhibition material and we hope to receive a positive response from you to ensure a good geographic and technical representation of the historical lighthouse heritage. The organisers will provide the necessary exhibition stands, visitor control barriers and staff.

An IALA member sending exhibition material will be responsible for the transport costs of that material, but may apply for the limited financial support available from Korea for exhibition artefacts which it judges to be of highest significance.

If exhibition material is donated to Korea then Korea will cover the reasonable cost of transportation and insurance to Korea, and will display the artefacts permanently in the Korea National Lighthouse Museum with the name and country of the donor organisation.

We urge you to participate in the heritage exhibition and would be grateful if you would submit your application, using the attached form, by 30th June 2017 using e-mail to heritage@iala2018korea.org or fax to +82 2 2627 8315.

For enquiries on shipping of exhibition artefacts, please consult the IALA Conference secretariat in Korea. Contact details may be found at the end of the application form.

We look forward to your participation in the 19th IALA Conference World Lighthouse Heritage Exhibition.
